**PERSONAL FOND OF ACADEMIC SVETOZAR PETROVIĆ AS A SOURCE FOR THE  
LITERARY-HISTORICAL AND LITERARY-THEORETICAL RESEARCH**

**Summary:** The paper points to the personal fund of academician Svetozar Petrović as a specific phenomenon. Namely, in the corpus of literary-historical, literary-theoretical and comparative studies published in the former Yugoslav state, the insights provided by the scientific attitudes demonstrated in the correspondence of Svetozar Petrović with numerous world and Yugoslav Slavists rank this fond – in the cognitive sense – next to some of the more significant studies in the field of theory and history of literature. In addition, this personal fond was also one of the causes for organizing an international Slavic meeting held at the Serbian Academy of Sciences and Arts Branch in Novi Sad in 2022.

**Keywords:** personal fond, literary science, archives, correspondence, Svetozar Petrović
